

Recent History and Summary of events

Prepared for Lynette Croll, by Lynette Croll and Trevor Croll

Reference G40703

- Henry Theodore Croll deceased (Harry) was the Husband of Lynette Croll of 55 years. Trevor, Faye, Cheryl, Leonie and Ian are the children of that marriage.
- Faye Johnson had been living rent and board free at 2 Flett Street, Bunyip for the last 10 years up and about 10th July 2003.
- On the 4th May Trevor arrived from Queensland having been asked here to help Lynette by Harry Croll. Harry paid him \$33,000.00 up front in management fees to act as a manager to help Lynette run the farming businesses. This transaction was supervised by Neil Robertson our accountant as there were considerations as to tax implications
- Harry was very ill and knew he was going to die. Lynette had been complaining that Faye was not being nice to her. Lynette complained that Faye stole Harry's favourite racehorse (Bunyip Bell) and gave it to her boy friend Bruce James. Lynette did not like Bruce James and did not want him in the house. Faye was having him here every weekend. Lynette felt she was being bullied and intimidated by Faye.
- On 15th June 2003 Harry Croll died leaving every thing to Lynette with his will appointing Trevor and Lynette as joint Executor.
- On the 17th June 2003 John Giralac told Bill Moore that he had to find a new place to live as the Longwarry farm was on the market. He further stated that it had been offered to him by Faye. On or around the 20th June 2003 Faye came home with the statement "What am I, the dumb daughter, why did Harry change his will and take me out and put in Trevor as executor?" Faye said the solicitor John Kyne had told her she was no longer executor and Faye then must have realized she would not be able to sell everything and run off with the money.
- Lynette had to ask Faye to leave the house as she was punishing her to wear her down so she could get all my money. Faye stole over \$2,000,000.00 in property including personal papers and other keepsakes the loss of which caused Lynette great distress.
- Lynette has been suffering ongoing persecution from her three daughters. Cheryl has conveyed threats from both Faye and Leonie including death threats against Trevor. Cheryl told Lynette and Trevor that Faye's plan was to become guardian and take all my money and property from Lynette and put her in a HOME. Lynette has been stalked by Leonie and she has told friends and family that Lynette is mentally incapable and that Trevor is taking all Lynette's money. Cheryl and Faye are saying similar things as well. They believe they should have got lots of money from the estate and it is not fair that it all went to Lynette.
- I believe Lynette's last stroke was caused by inadequate medication and stress caused by her daughters and the Bunyip Postmaster as stress caused heart arrhythmia and arrhythmia causes clots and clots cause strokes. Lynette was placed into a state of siege fearing that Faye would come to the house and attack her. Cheryl told how Faye punched her up in the hospital when Harry was dying. Cheryl continued to convey threats to Trevor and Lynette

about Faye and advised of what Faye said she was doing and going to do to get rid of Trevor and take control.

- On the 11th January Faye and her son Alan went to visit Lynette in Hospital and caused Lynette much grief with demands, threats, abuse and defamation against Trevor. Faye and Alan then went to 2 Flett Street where Alan, with Faye's encouragement, pushed and punched Trevor around and then threatened him with a 1.3 meter 5 cm diameter galvanized steel pipe aiming it directly at his head.
- The Bunyip Police were called and arrangements were made for Faye to collect her belongings still at the house with Sergeant Ray de Ruse acting as a guard for Lynette and Trevor.
- Next day Cheryl called and told Lynette that Faye was coming back to get more stuff from her house and that she had gloated about the property she took that did not belong to her. Lynette fell into a state of absolute fear and her blood pressure was 180 / 110 and four times the prescribed amount of Noten was still not enough to bring her blood pressure to a safe level.
- For Lynette's well being Lynette went to her sister's place (Rhonda Emmerson) in Bendigo and did not tell anyone where she was going so she could feel safe in Bendigo. Leonie set about gaining support from friends and family by telling them that Lynette was not properly being looked after by Trevor, some of the things said were clearly without foundation and clearly false and were designed to defame Trevor and make Lynette seem to others to be demented.
- Lynette has administered our farming businesses including a Hotel and has been doing so all her married life. She is still running businesses and finances even though She have been in Hospital. She works with Trevor and Trevor and Lynette did the Probate on Harry's estate together.
- Cheryl told us that Faye had organized with John Kyne for the last will of Harry's to not be accepted, thus causing the earlier will to be probated. This will had Lynette only as executor. Cheryl told that Faye's plan was then to have Lynette declared incapable and to take over, sell everything and take off with it all. Fearing that Cheryl might be telling the truth Trevor and Lynette saw no other option other than to do the Probate themselves.

Lynette Croll has had to endure the death of her husband of 55 years, recover from a stroke and endure 10 months of severe stress from an ongoing harassment and when she sought to get away by going to her sister's and by not answering the telephone and talking to any daughters the three daughters ganged together and brought this hearing to force Lynette to accept them and talk to them and sought to have Lynette removed from her own home and put in the company she does not wish to be in and in a house she does not wish to live in.
